PROFESSIONAL SUMMARY

B.Tech Information Technology student (Expected May 2027) with hands-on MERN stack experience (MongoDB, Express.js, React.js, Node.js), REST API development, JWT and session-based authentication, and deployment on Vercel and Render. Strong foundation in Java, JavaScript, OOP, and SQL/DBMS. Built and deployed full-stack applications including Codemark (AI-powered code review tool) and WanderLust (property listing platform), plus Kavach (women's safety app). Active open-source contributor (GSSoC 2026) with merged pull requests and a daily Git/GitHub workflow. Seeking a MERN Stack / Full-Stack Developer role (internship or full-time) to build and ship real-world web applications.

TECHNICAL SKILLS

MERN Stack: MongoDB, Express.js, React.js, Node.js
Languages: JavaScript (ES6+), Java, SQL
Back-End and APIs: RESTful APIs, JWT Authentication, Session Authentication (Passport.js), API Integration (Google Gemini API, Google Maps API, Mapbox API, Geolocation API), Cloudinary, Joi, Spring Boot (Basics), Hibernate (Basics)
Front-End: React.js, Vite, HTML5, CSS3 (Flexbox, Grid), Bootstrap, EJS
Databases: MongoDB, MySQL, Supabase
Deployment and Tools: Vercel, Render, Git, GitHub, VS Code, IntelliJ IDEA, Generative AI Tools

PROJECTS

Codemark - AI-Powered Code Review Tool
React, Vite, Monaco Editor, Node.js, Express, MongoDB, Google Gemini API | Deployed on Vercel and Render | Live Demo

- Built a full-stack code review platform with JWT-authenticated signup/login and protected routes.
- Integrated the Google Gemini API to generate structured AI reviews: quality score, severity-tagged issues, and suggested fixes.
- Implemented hash-based caching to skip redundant AI calls on identical code resubmissions.
- Built a paginated review dashboard with Monaco Editor-based code submission and direct file upload.
- Deployed the React frontend on Vercel and the Node/Express REST API on Render.

WanderLust - Airbnb-Style Property Listing Platform
Node.js, Express, MongoDB, EJS, Passport.js, Cloudinary, Mapbox | Deployed on Render | Live Demo

- Built and deployed a full-stack Airbnb-style listing platform on Render using Node.js, Express, MongoDB Atlas, and EJS, with a responsive Bootstrap UI.
- Implemented Passport.js authentication with MongoDB-backed sessions and authorization middleware so only listing owners and review authors can edit or delete content; added Joi request validation.
- Integrated Cloudinary image uploads and Mapbox geocoding to store GeoJSON locations and render interactive maps; built category filters, keyword search, and 1-5 star reviews with cascade deletion.

Kavach - Women Safety Application
Java, Spring Boot, Hibernate, MySQL, React.js, Google Maps API

- Built a one-tap SOS system with real-time GPS alerts to 5 emergency contacts and auto-dial to helpline 112.
- Implemented a Safety Heatmap (Google Maps API) to visualize high-risk and safe zones from crowd-sourced data.
- Developed a Safe Journey module with live route monitoring, real-time safety scoring, and safe spot discovery.
- Integrated an AI chatbot (Hindi/English), Anonymous Reporting, Evidence Vault, and Voice Activation SOS trigger.

EXPERIENCE

Front-End Web Development Intern - IBM SkillsBuild (CSRBOX Foundation) Jun 2024 - Aug 2024

- Completed a 6-week front-end internship in collaboration with IBM SkillsBuild and CSRBOX Foundation.
- Built responsive, accessible web page layouts and strengthened core HTML, CSS, and JavaScript fundamentals.

Web Development Trainee - Acmegrade Feb 2024 - Mar 2024

- Developed RESTful backend services using the MERN stack; deployed full-stack applications on live servers.
- Built responsive web pages using HTML, CSS, and JavaScript with DOM manipulation and event handling.

EDUCATION

B.Tech in Information Technology - Bhagat Phool Singh Mahila Vishwavidyalaya Expected: May 2027

ACHIEVEMENTS

- **GSSoC 2026 Open Source Contributor** - Merged 2 pull requests to github.com/Ixotic27/The-Leetcode-City: fixed automatic achievement-unlock evaluation logic on LeetCode stats sync, and improved a UI modal with retry logic, focus trap, and reduced-motion support.
- **2nd Runner-Up, Kavach Project Showcase** - university-level event held for National Technology Day 2026.

CERTIFICATIONS

- Front-End Web Development - IBM SkillsBuild, in collaboration with CSRBOX Foundation, 2024 (Certificate ID: 19Ngv5mHWvjmKnqtVyOg1mIpks2q4MJVd)
- Web Development Training - Acmegrade, 2024 (Certificate No: AGC2024021071)
- Java Programming Certificate - Simplilearn, 2025 (Certificate Code: 8749477)
